👤 PROFILE

Front-end developer with working experience in React, JavaScript, and Bootstrap. I am a team player with a strong work ethic and continuous motivation to learn. I prioritize clear communication and productivity at work. Most importantly, I embrace unexpected challenges as learning opportunities to grow as a professional.

💼 EXPERIENCE

06/2022 – present
Miami, FL

Junior Developer, *Job Core, Inc* ⤢
- Created manual front-end tests using Cypress, Jest, React testing library, and Enzyme. Also, I made back-end automated test scripts for Django using GitHub actions.
- Created front-end documentation using JSDocs, designed wireframes using Figma, and created tutorials on our coding/design processes using Notion.
- Learned how to work with legacy code. Also, I learned to understand documentation, update deprecated libraries, and manage versions of plugins and dependencies.
- Learned how to work with mobile apps made with React Native in Android Studio.

Key achievements:
- Developed a view called "Metrics" that displayed user activity connected to data from our API in real-time. I made it with Bootstrap, Chart.js, and React-Date-Picker.
- Integrated Stripe into our back-end and front-end to allow transfers.

09/2021 – 05/2022
Miami, FL

Coding Mentor, *4Geeks Academy* ⤢
- Mentored students in subjects like HTML, CSS, JavaScript, Bootstrap, React, Python, Flask, SQLite, and GitHub.
- Taught students how to debug their own code by analyzing their errors.
- Guided students while still challenging them to think/problem solve.
- Simultaneously worked as a teacher assistant who reviewed and graded coding projects from students.

04/2022 – 06/2022
Remote

Junior Developer, *makeitMVP*
- Collaborated on a web app for a medical company called Elana.
- Learned how to create a database on MongoDB and manage it with Express.
- Learned Material Design Bootstrap and improved my React and JavaScript skills.
- Improved my communication skills by working with other developers, a UI/UX team, and the Elana founders.

🎓 EDUCATION

08/2021 – 12/2021
Miami, FL

Certificate of Completion - Full Stack Development, *4Geeks Academy* ⤢
Created full-stack apps and learned how to use GitHub, Bootstrap, and Restful APIs.

🧠 SKILLS

JavaScript | Bootstrap | HTML/CSS | ReactJS | React Native | Cypress | Enzyme | React Testing Library

Jest | JSDoc | Chart.js | GIT/GitHub | Figma | Python | Flask | Django | MongoDB | MDBootstrap

Axios | Express | React Native | Android Studio | SQLite | Spanish (Native Speaker) | Communication
